EXPERIENCE

Data Analyst Intern — Rubixe AI Solutions

Jun 2025 – Jan 2026

- Analyzed large datasets using SQL and Python to extract insights and support business decision-making
- Performed data cleaning, validation, and transformation to ensure data quality and integrity for accurate reporting
- Created interactive Power BI dashboards to track KPIs and monitor business metrics, enabling stakeholders to make data-driven decisions
- Collaborated with cross-functional teams to translate business requirements into scalable, data-driven solutions

PROJECTS (POWER BI)

Customer Segmentation Dashboard | Power BI

- Built an interactive dashboard segmenting customers by age, gender, category, and location to uncover purchasing patterns
- Visualized average review rating, purchase amount, and repeat purchases using pie, column, and stacked bar charts
- Applied a Key Influencers visual to surface relationships between payment method, location, and customer behavior

Global Fuel Price Analysis Dashboard | Power BI

- Designed a dashboard comparing petrol, diesel, and LPG prices against Brent crude oil rates across countries
- Built a geo map, year-wise tax contribution chart, and KPI cards to highlight global fuel pricing trends

Profit Analysis Dashboard | Power BI

- Analyzed profit drivers across R&D spend, marketing spend, and administration costs by state using combo and donut charts
- Used a Key Influencers visual to identify a strong correlation between R&D spend and net profit

Weather Data Analytics Dashboard | Power BI

- Developed a dashboard visualizing real-time weather metrics including temperature, humidity, rainfall, UV index, and wind speed
- Designed dynamic KPI cards and visual analytics to track weather trends and support decision-making
